METHODOLOGY: solo

VIEWER IDENTIFIER: ~~032~~ 018

1. (S/STD) MISSION: Provide information on narcotics-smuggling operation involving a series of callsigns.
2. (S/STD) <sup>SG1A</sup> VIEWER TASKING: Encrypted coordinates plus listed callsign [REDACTED] (See attached tasking sheet)
3. (S/STD) COMMENTS: No Physical Inclemencies.
4. (S/STD) EVALUATION: Since no "ground truth" operational data is known for comparison, no objective evaluation can be made of viewer 032's results. "Oriental feel" suggests viewer may be accessing correct site. Unfortunatley, though site was described, no map location could be determined. Confidence estimate: 50%
5. (S/STD) SEARCH EVALUATION: ~~Same as above~~

TASKER

1. PROJECT: 9007-II.
2. ENCRYPTED COORDINATES: 220493/579178.
3. BACKGROUND: See vessel call-signs provided with EEI below.
4. ESSENTIAL ELEMENTS OF INFORMATION: Determine the following for each "call sign" listed below.
  - a. Provide the true name of the person associated with the call sign. In lieu thereof, provide phonetics of the true name.
  - b. Describe the vessel associated with the call sign.
  - c. Determine the current location of the vessel associated with the call sign.
  - d. Determine the destination(s) of the illegal drugs.
  - e. Determine the nature of the illegal drugs.

Session: 03

SUMMARY OF INFORMATION:

1. (S/STD) Provide the true name of the person associated with the call

SG1A sign [REDACTED] Again, this question has no exact meaning, so cannot produce an exact answer. There was, however, an impression of a "nordic-type" male with a very stocky build, short blond hair, and winning smile. He appears to be nicknamed "Hamm". He was seen aboard ship in a narrow passageway, but his relationship to the callsign was not determinable.

2. (S/STD) Describe the vessel associated with the callsign [REDACTED]

The vessel is very large. The colors appeared to be mainly black and/or very dark grey, and there appeared to be the very light beginnings of rust on the sides. No further information was gained.

3. (S/STD) Determine the current location of the vessel: (Time: 0445 hrs)

Local 29 MAR 90) Repeated attempts to locate the vessel on a map produced no results. The ship, however, is docked in a port which is on the southern side of a land mass with open sea to the southeast (see map sketch, Fig. 1). There is an oriental feeling to this city.

4. (S/STD) Determine the destination(s) of the illegal drugs: Again, attempts with a map failed, but the destination is a port which is located across a bay or narrow gulf from other land. Open sea is to the south (see

map sketch, Fig. 2) This city has a definite oxidental feel to it.

5. (S/STD) Determine the nature of the illegal drugs: The drugs consist of a pure white powder in large (approx. 6" X 6" X 3") plastic bags which are stuffed to the point of being rounded.
